

## Commissioning for Quality and Innovation (CQUINs) 2019/20

The following draft CQUIN targets for 2019/20 are to be agreed with our NHS commissioners.

We assign CQUIN leads on clinical and operational levels to appropriately support each CQUIN. We publish monthly data on how we are doing against milestones and this is published in the Trust's Integrated Quality and Performance Report, which is discussed in our public board meetings. The NHS Commissioners are informed of progress on a quarterly basis.

Ref	Description
1	CCG1a <b>AMR– Lower Urinary Tract Infections in Older People</b> - Achieving 90% of antibiotic prescriptions for lower UTI in older people meeting NICE guidance for lower UTI (NG109) and PHE Diagnosis of UTI guidance in terms of diagnosis and treatment.
	CCG1b <b>AMR– Antibiotic Prophylaxis in colorectal surgery</b> - Achieving 90% of antibiotic surgical prophylaxis prescriptions for elective colorectal surgery being a single dose and prescribed in accordance to local antibiotic guidelines.
