## 1. Suggested discussion points [two or three issues you consider the Trust Board should focus on]

We continue to achieve our financial plan year to date, although for the first time this year a small amount of non-recurrent support was required to report on plan (£286k). The same picture continues, in that income and pay are both under plan.

Improvements in group ownership of income forecasting continues, and a pre-mitigation forward look on income combined with a pay forecast considered at September's FIC suggests that the two variances from plan will continue to net each other off for the rest of the financial year. The income position year to date allows for £1.129m for a drop in activity due to Unity expected in September.

The pay forecast is subject to further work to confirm the impact of internal versus external recruitment, sickness improvement trajectories, and consequent temporary staffing spend reduction. This work will need to conclude on the impact on 1920 performance on extant 2021 plans.
