

Maternity Care Guide

Information and advice for women

Welcome to Sandwell and West Birmingham NHS Trust for women and newborn babies. Thank you for choosing to have your care at our hospital.

Your antenatal care may be from the midwife and the GP (Midwife-led care), while some women may need to be seen by an Obstetrician (Obstetric-led care). At all antenatal appointments (apart from scans and after 26 weeks), your baby's growth will be monitored, and your blood pressure and urine will be checked. It is your responsibility to check your next appointment has been made. At your first appointment, your midwife will show you how to access the portal where you can read information leaflets in a language you can understand better.

Week of pregnancy	Reason for Appointment	What do I need to do?
8-12	Dating Scan	
14-16	Antenatal Check Checking of booking blood results Combined Down's Syndrome result Quadruple screening if required Risk assessment	Make sure you have this appointment: <ul style="list-style-type: none"> • GP surgery • Call your community midwife • Ask about the Whooping Cough vaccine
