Introduction

1.1 Sandwell and West Birmingham NHS Trust is an integrated care organisation dedicated to improving the lives of local people, to maintaining an outstanding reputation for teaching and education and to embedding innovation and research. Sandwell & West Birmingham NHS Trust Training Provider aims to provide high quality learning, development and support to apprentices. In order to achieve this and continually improve what we do, feedback and timely resolution of any complaints or concerns is vitally important. Whilst the highest standards of quality are our benchmark, we also know that there may be occasions when expectations of apprentices, employers, staff and parents/carers are not realised. This policy explains how to make a complaint or raise a concern to our service as well as how to provide any additional feedback comments or compliments which may fall outside of our existing procedures such as formal programme reviews.

Other policies and forms to which this policy relates:

This policy should be read in conjunction with the SWB Equality, Diversity and Inclusion Policy.

2.0 Objectives

2.1 This policy describes how to speak up to us as a Provider should you have a concern, compliment or complaint. This enables us to continually build on things that are working well and to rectify things that have not worked well or as expected. This policy applies to all parts of an Apprenticeship journey which includes, but is not limited to:

- The initial recruitment stage including assessment centre and interview.
- Initial induction into the workplace and onto the Apprenticeship.
- Quality of teaching from centre staff including Functional Skills.
- Quality of individual support in learning provided by us.
- Preparation for EPA activity.
- Quality of IAG given to apprentices.
