

Report Title:	Board Level Metrics for Population		
Sponsoring Executive:	Daren Fradgley, Director of Integration (Interim)		
Report Authors:	Daren Fradgley, Director of Integration (Interim)		
Meeting:	Trust Board (Public)	Date	2 nd December 2021

1. Suggested discussion points *[two or three issues you consider the Trust Board should focus on]*

Each member of the Executive Team has personally provided their own commentary to the area for which they are the lead within the Population Strategic Objective.

This adds a further strengthening the ownership and accountability where improvements are required in the main IQPR Report.

The report is of course, a work in progress and will remain so, to ensure that performance, risks and mitigations are easily understood, tracked over time and constantly improved.

This report, when working as we would expect it to, should enable the board to operate at strategic level, confident in the work of the sub-committees in testing assurance and understanding further detail provided by the executive and their teams.

2. Alignment to our Vision *[indicate with an 'X' which Strategic Objective this paper supports]*

Our Patients	Our People	Our Population	
To be good or outstanding in everything that we do	To cultivate and sustain happy, productive and engaged staff	To work seamlessly with our partners to improve lives	X

3. Previous consideration *[where has this paper been previously discussed?]*

N/a

4. Recommendation(s)

The Trust Board is asked to:

a. RECEIVE: and note the report for assurance

b.

5. Impact *[indicate with an 'X' which governance initiatives this matter relates to and where shown elaborate]*

Trust Risk Register					
Board Assurance Framework	X	New SBAF risks related to Place Based Partnerships refers			
Equality Impact Assessment	Is this required?	Y	N	X	If 'Y' date completed
Quality Impact Assessment	Is this required?	Y	N	X	If 'Y' date completed

SANDWELL AND WEST BIRMINGHAM HOSPITALS NHS TRUST

Report to the Public Trust Board: 2nd December 2021

Board Level Metrics for Population

CQC Domain	N/a
Trust Strategic Objective	Our Population
Executive Lead(s): Director of Integration (Interim)	
<p>Work to develop a complete set of outcome measures in this area continues.</p> <p>A first draft for Sandwell went to the Place Based Partnership Board last month and further refinement was requested. This will take a few months to work through. However it should be noted that outcome measures will take a longer period of time to move and therefore aligned input and output measures that will show transitional performance and improvement are part of this development and will be used to track transformation progress.</p> <p>As part of the system development work, NHSE are developing a broader set of Health Inequalities measures that are expected next year and will be used to align the system places together. In addition, work with public health to look at the wider determinants of health is underway.</p> <p>In the meantime, place performance measures such as access and timeliness to services will be important milestones to assess the gaps in services and the wider place based pressure as the recovery post Covid continues. Never more so is this important given the drastic changes in access to primary care during the pandemic which in most cases has changed service flows for a generation.</p> <p>The same piece of work is underway in Ladywood and Perry Barr although in this instance, the Trust is playing a supportive role rather than a leading one. Progress in this area hasn't been as quick but the momentum to commence this work is starting to build.</p>
