Johns, Mr. Shaun Richard	Healthcare Scientists	Manager	N		Y	Financial interests	Outside employment	Lablogic is a company who specialise in developing and selling laboratory equipment. They have a portfolio of products which relate to Radiopharmacy specifically, the area in which I work at the Trust as Production Manager. In 2020 the Trust purchased a permanent piece of Radiopharmacy software called SPECTra from Lablogic. This system is used to plan and record Radiopharmacy production. This system is periodically updated by Lablogic at no extra cost. I have proposed an arrangement for ad hoc consultancy with Lablogic regarding SPECTra. The terms of the arrangements will involve bug testing of new versions / features before they are installed in Radiopharmacy sites. This will also extend to consultancy about new features for the software. This may further extend to assisting other Radiopharmacies in the country with installing and validating the software into their own Departments. The work relates to a piece of software already owned by the Trust. The work will take place outside of working hours. This work was discussed and approved by my line manager Jilly Crossdale (Head of Radiopharmacy) on 08/09/2023.	Arrangements are ad hoc and will be ongoing.		10/09/2023		INSERT	08/09/2023

Sadhunavar, Dr Virupaksha Shivarudrappa	Medical and Dental	Consultant	N	Y	Y	Financial interests	Outside employment	I have registered myself with A&E Locum Agency earlier this year as I was contemplating starting to work in other trusts to widen my experience. But, so far, I have not picked up any shifts through A&E as I still believe I should primarily work for my own trust to fill unfilled shifts. I am not sure if I will pick up any shifts through A&E Locum agency but my primary loyalty continues to be my own trust (SWBH NHS Trust). I have never ever done even a single shift outside my employing trust and I am proud of it.
